SILKEKA

The World of Silk-ka

A story rooted in passion

What began as the dream of a florist's son has grown into a globally recognised brand. When founder Patrick Oude Groeniger faced an unexpected turning point that kept him from working with fresh flowers, he chose a different path, reimagining their beauty through luxurious faux botanicals. A seed was planted for what Silk-ka is today.

From that moment, Silk-ka became more than a name. It became a signature of style, where craftsmanship meets imagination. Our collections draw from a distinct blend of influences: the untamed grace of nature, the language of fashion, and the elegance of interior design. Together, they shape what we believe in most: creating atmosphere through our products. A feeling. A world to step into…

Our company trademark stands as a quiet but powerful emblem of this philosophy. Rooted in symbolism and steeped in story, its elements reflect the values that shape everything we do. Commitment, creativity, and connection. It is a reminder that our work is certainly not only designed to be seen, but also to be felt and experienced.

At its heart lies a Latin phrase:

Intuitem et Magicae

"From intuition, we create enchantment"

This emblem is more than a visual mark. It is a promise to you. A reminder that everything we do is driven by feeling over formula, instinct over imitation. As Silk-ka continues to evolve, we remain devoted to the art of transformation, designing pieces that don't just fill a space, but elevate it. With roots in Dutch design and eyes on the horizon, we look forward to what comes next.

Thank you for being part of this journey in the world of Silk-ka!

Sculpted Branches

Collection

It's all about the shapes! This collection of branches is skilfully crafted to be versatile and stunning. Use them solo as a "cut flower" in a vase, or combine several for a luxurious, green bouquet.

They also shine as small trees in, for example, modern terra cotta containers because the end of the different stems come skilfully together. With the taller branches it is flattened, the smaller ones have a distinctive point. Fixating them in, for example, floral foam will be super easy thanks to this extra feature.

No matter how you choose to display them, their elegance adds a unique touch to any room. And remember, beautiful things cast beautiful shadows.
