

The right pot for every plant

Product catalogue

2027

Made to grow

We believe in a smarter way of making planters.
Welcome to Capi Europe.

We are a Dutch flower pot manufacturer with a green heart. What once began as a small idea in the Netherlands has grown into an international brand operating in over 60 countries worldwide.

We design in-house and produce a large part in our own factory in the Netherlands, combining innovation, quality, and sustainability. The result is a collection of lightweight, durable planters with outstanding performance and a distinctive, timeless design.

Inspired by nature, our collections bring greenery closer, indoors and outdoors, for people who value style, quality, and longevity, helping to bring nature closer to home, whether on the balcony, in the garden or at the office.

Original design
We design every planter in-house and create collections you won't find anywhere else.

Built to last
Using recycled materials and local production.

Smartly produced
Innovative techniques make our planters lightweight and strong.

For every type of plant lover
From design enthusiasts to urban balcony gardeners.

Compresso

The Compresso texture is shaped by the traces of tightly wound ropes that were used to create the original mold. Their overlapping lines and subtle irregularities result in a warm, handcrafted texture that reflects the making process itself.

Biodiversity

The Biodiversity collection strengthens nature in everyday environments by supporting a healthy balance between plants, animals, and natural resources around the home.

It encourages water reuse, provides shelter for wildlife, and promotes greener living spaces, helping biodiversity to thrive.

Displays & POS

To assist our customers to present the Capi accessories, we developed displays and POS materials for a practical and suitable presentation.

Accessories display
A useful rack for displaying the pot pads.
See page 121.

Terrazzo Bowl - TER301

TER301	37 x 9	3 L	

This terrazzo bowl can be used as a plant bowl or as a drinking bowl for birds.

This bowl is only available per pallet (135 pieces). You can order a double-sided printed signing board with the pallet (75 x 57 cm). It's possible to attach this signing board to a pallet crate.

This black bowl is made of original terrazzo and is therefore sturdy and weather resistant.

Display for insert pots
This (mobile) rack is perfect for displaying our insert pots.
See page 121.

Display for design trolleys
This rack is ideal to display our round design trolleys.
See page 121.

Capi

The right pot for every plant

Warranty & service

The Made in Holland collection comes with a **lifetime warranty** on manufacturing defects when the products are being used properly. We are proud to offer a lifetime warranty on these products to show you that we believe in their quality.

The rest of our collection comes with the statutory warranty period for manufacturing defects. These warranty rules only apply when the products are being used properly.

If anything happens to a Capi product when it is in use, or when a customer comes back with a complaint about a product, please do not hesitate to contact our service department. We are happy to help you. Please visit **capi-europe.com/en/guarantees/**, fill out the form and we will make sure you will be assisted as soon as possible.

It will be very helpful if you would describe and attach the following:
- Description of the complaint.
- Type of product and size.
- Photos of the product and their defect.
- Purchase receipt.

Filling tip

1. Choose an impressive plant.
2. Fill the planter for 1/3 with hydro grains.
3. Fill the planter for 2/3 with soil.
4. Put your impressive plant in the soil.
5. Enjoy the growth.

Outdoor use? Please drill a 25mm hole to ensure water drainage and place our drainage cap on top (see page 121).

Our warranty rules apply when our products are being used properly. There are some things to keep in mind when using a planter;

· Planters need a drainage hole when being used outdoors. This allows the roots of the plants to breathe and it makes sure the water can drain off. This drainage hole also makes the planter frost-resistant. In addition, it is important that the pot is kept off the ground in frosty conditions. If the pot has a flat bottom, it can be placed on pot feet or a trolley.

· Make sure the drainage hole is at least 25mm, otherwise it may be clogged by the hydro grains in the pot. If the pot doesn't have enough drainage, the plant will be standing in too much water for too long (and the pot won't be frost-resistant). Poor drainage can also cause calcification on the outside of the pot. This is easy to clean, but even easier to prevent with a good drainage.

· When the pot is filled, it is less easy to move it because of its weight. Therefore, find a suitable spot in advance. If you do want to move the pot (e.g. because plants have to go inside during the winter), preferably use a trolley or lift the pot at the bottom with two people. Do not lift the pot by the edges, but at the bottom. The edges are no longer fracture-resistant when the pot is fully filled, because of the weight.

· Not all plants are suitable for pots. Our pots are only fracture-resistant if the potted plants and their roots remain in proportion. Plants with fast-growing roots, create increasing pressure and are not suitable for placing in flower pots. These include tree species, fast-growing plants and, for example, bamboo. These plants are mainly suitable for placing in the ground. If you want to put them in a nice pot, make sure you regularly repot them to a larger pot. If in doubt, always contact our service department or ask for advice in the garden center.

· Make sure the plants are in proportion with the pot you place them in. If the plant is too big or too high the plants probably do not have enough space to grow, and the pot probably can't hold the plant, in gusts of wind for example, because the pot is not heavy enough to stay upright.

· A flowerpot can always get dirty, especially if it is outside. The flower pots can easily be cleaned with a soft brush or cloth, possibly with some warm water and a little detergent. For shiny flower pots, preferably use a soft cloth to avoid scratches. Do not use high-pressure cleaners, caustic/ abrasive products or products with chlorine/ other bleaching agents.

Feel free to contact our service department if you have any questions.

Happy to help

Scanbook

As a business customer, it can be helpful to do a quick search for articles. For this reason we offer a scanbook.

The scanbook contains all articles that can be ordered.

This includes both the sets, and the articles that are available individually. In addition to the article details and barcodes, you can find the order unit and the dimensions of the products. We hope this will make ordering a lot easier and faster!

You can also check our collection and place your order through our B2B webshop!
